FOUNDATION STUDIES IN SCIENCE

(R/010/3/0316)(A11398)04/2020

Credit Hours: 50 Duration of Study: 1 year

PROGRAMME DESCRIPTION

The Foundation in Science programme is tailored to provide students with a direct route into related degree programmes such as biomedical, environmental health, occupational safety and engineering. The core science modules integrated in the programme equip the students with strong theoretical foundation to fully prepare them for their degree journey. In addition to that, the programme also strengthens English proficiency through its comprehensive English modules.

TERTIARY EDUCATION PROSPECTS

- Bachelor of Biomedical Sciences (Hons)
- Bachelor of Environmental Health (Hons)
- Bachelor of Occupational Safety & Health (Hons)

SUBJECTS OFFERED

- Bahasa Kebangsaan A / Profesional Communication
- Pengajian Malaysia 2 / Bahasa Melayu Komunikasi 1
- Foundation English 1
- Basic Statistics
- Introduction to Office Software Applications
- Foundation English 2
- Study Skills
- Physics A
- Biology A
- Basic Calculus
- Biology B
- Physics B
- Chemistry

DIPLOMA IN MEDICAL LABORATORY TECHNOLOGY

(R2/725/4/0044)(A8403)04/2024

Credit Hours: 99 Duration of Study: 2 years 8 months

PROGRAMME DESCRIPTION

This is a health science programme which focuses on the skills in laboratory testing analysis related to human health. Practising various laboratory diagnostic techniques and handling various types of human samples provide a backbone diagnostic analysis for clinical interpretation.

CAREER PROSPECTS

Medical Laboratory Technologist, Lab Assistant, Product Specialist, Clinical Assistant, Sales Specialist, Application Specialist, Research Assistant, among others.

SUBJECTS OFFERED

YEAR 1

- Academic English 1
- Basic Entrepreneurship
- Biochemistry
- Anatomy & Physiology
- Professional Communications / Bahasa Kebangsaan A
- Genetic & Molecular Biology
- Lab Instrumentation
- Academic English 2
- Pengajian Malaysia II / Bahasa Melayu Komunikasi I
- Immunology
- Chemical Pathology 1
- Co-curriculum

YEAR 2

- Academic English 3
- Histopathology 1
- Hematology 1
- Blood Banking 1
- Clinical Microbiology 1
- Chemical Pathology 2
- Parasitology 1
- Biostatistics & Epidemiology
- Blood Banking 2
- Cytopathology 1
- Histopathology 2
- Clinical Microbiology 2

YEAR 3

- Cytopathology 2
- Hematology 2
- Parasitology 2
- Clinical Microbiology 3
- Industrial Training I
- Industrial Training II

DIPLOMA IN ENVIRONMENTAL HEALTH

(R/853/4/0028)(A11379)10/2020

Credit Hours: 95 Duration of Study: 3 years

PROGRAMME DESCRIPTION

This programme stresses the concept of environmental conservation and rehabilitation to human health. It also includes all the health aspects such as food quality and safety, water quality, air quality, vector control, communicable and non-communicable disease control, occupational health and safety and the public health.

CAREER PROSPECTS

Assistant Environmental Health Officer, Assistant Food Hygienist, Vector Control Officer, Solid Waste Management Officer, Assistant Environmental Officer, among others.

SUBJECTS OFFERED

YEAR 1

- Pengajian Malaysia 2 / Bahasa Melayu Komunikasi 1*
- Academic English 1
- Chemistry
- Introduction to Environmental Health
- Environmental Microbiology (I)
- Environmental Physic
- Professional Communications
- Academic English 2
- Introduction to Occupational Safety & Health
- Environmental Science
- Environmental Chemistry
- Environmental Microbiology (II)
- Anatomy & Physiology
- Basic Entrepreneurship
- Bahasa Kebangsaan A
- Instrumentation for Environmental Health

YEAR 2

- Co Curriculum
- Behavioural Science
- Environmental Toxicology
- Soil & Hydrogeology
- Water Quality & Safety
- Wastewater Management
- Academic English 3
- Environmental Sampling & Analysis
- Epidemiology & Biostatistic
- Health Risk Assessment
- Pest and Vector Control
- Food Hygiene & Safety
- Environmental Health Law
- Control of Communicable Diseases
- Toxic & Solid Waste Management

YEAR 3

- Environmental Health Education
- Procedure of Environmental Health Law
- Urban Sustainable Development
- Food Technology
- Recreational Water & Park
- Industrial Training (I)
- Industrial Training (II)

DIPLOMA IN OCCUPATIONAL SAFETY & HEALTH

(R2/862/4/0036)(A8402)01/2024

Credit Hours: 90 Duration of Study: 3 years

PROGRAMME DESCRIPTION

Students will obtain skills and knowledge on hazard analysis procedures from various sources, risk assessments and hazard prevention.

CAREER PROSPECTS

Safety and Health Officer in any field such as: Oil and Gas, Constructions, Government Sector, Manufacturing, Industrial Hygienist, among others.

SUBJECTS OFFERED

YEAR 1

- Academic English 1
- Basic Toxicology
- Human Biology
- Bahasa Kebangsaan A
- Introduction to Occupational Safety and Health
- Bahasa Melayu Komunikasi 1/ Pengajian Malaysia 2
- Badminton Club (Co-Curriculum)
- Academic English 2
- Biochemistry
- Physic
- Cell Biology
- Basic Entrepreneurship
- Principles of Management
- Biostatistics
- Chemistry

YEAR 2

- Organizational Behavior
- Environmental Toxicology
- Environmental Impact Assessment
- Industrial Hygiene (I)
- Occupational Health
- Personal Protective Equipment
- Accidental Investigation Procedure at Workplace
- Professional Communication
- Academic English 3
- Biomechanics
- Basic Engineering (I)
- Industrial Safety
- Industrial Hygiene (II)
- Health Risk Assessment
- Ergonomic
- Quality Assurance Management
- Behavioural Management of Employee at Workplace

YEAR 3

- Hazardous Waste Management
- Fire Prevention Management at Workplace
- Law and Administration of OSH
- ISO 14000 And ISO 18000
- Industrial Training 1
- Industrial Training 2

DIPLOMA IN NURSING

(R2/723/4/0040)(MQA/FA2644)05/2022

Credit Hours: 108 Duration of Study: 3 years

PROGRAMME DESCRIPTION

This programme prepares graduates to seek employment in a wide variety of health / human services field as professional registered nurses.

CAREER PROSPECTS

Staff Nurse, Sister, Educator, among others.

SUBJECTS OFFERED

YEAR 1

- Human Biology I
- Microbiology, Immunology, Parasitology
- Communication and Public Relations
- Principle and Practice in Nursing 1
- Psychology & Sociology
- Nursing Practice I
- Human Biology II
- Pharmacology
- Medical-Surgical Nursing I
- Principle & Practice in Nursing 2
- Nursing Practice II
- Pengajian Malaysia 2 / Bahasa Melayu Komunikasi 1

YEAR 2

- Medical-Surgical Nursing II
- Medical-Surgical Nursing III
- Women's Health
- Nursing Practice III
- Academic English I
- Medical-Surgical Nursing IV
- Medical-Surgical Nursing V
- Community Health Nursing
- Nursing Practice IV
- Academic English II

YEAR 3

- Medical-Surgical Nursing VI
- Mental Health Nursing
- Disaster and Emergency Nursing
- Nursing Practice V
- Basic Entrepreneurship
- Bahasa Kebangsaan A
- Nursing Management
- Nursing Research
- Nursing Practice VI
- Nursing Practice VII
- Professional Communication
- Academic English III
- Co-Curriculum (Badminton)

BACHELOR OF BIOMEDICAL SCIENCES (HONS)

(R/720/6/0101)(MQA/FA0624)05/2022

Credit Hours: 139 Duration of Study: 4 years

PROGRAMME DESCRIPTION

This programme is a partial medical or health science programme. The basic principles of this course cover all aspects of the clinical laboratory diagnosis, prevention and research in areas related to biomedicine, including pathology, microbiology, medical parasitology, anatomy and physiology, genetics, pharmacology, immunology and molecular biology.

CAREER PROSPECTS

Science Officer, Research Officer, Quality Control Officer, Quality Assurance Officer, Lecturer, Clinical Scientist, Biochemist, Application Specialist, Microbiologist, Biomedical Engineer, among others.

SUBJECTS OFFERED

YEAR 1

- Biochemistry
- Basic and Autonomic Pharmacology
- Medical Parasitology
- Techniques in Histology
- Basic Nutrition (*Elective Subject*)
- Introduction To Occupational Safety & Health (*Elective Subject*)
- Immunology
- Anatomy
- Physiology
- Cell Biology and Genetics
- General Microbiology
- Biostatistic
- Lab Instrumentation
- Health Information (*Elective Subject*)
- Health Psychology (*Elective Subject*)

YEAR 2

- Co-Curriculum
- English For Academic Purposes
- Clinical Microbiology
- Techniques in Histopathology
- Transfusion Science
- Applied Biostatistic
- Academic Skill
- English for Employment
- Advanced Biochemistry
- Basic Pathology
- Systemic and Central Nervous System Pharmacology
- Molecular Biology
- Entrepreneurship / Bahasa Kebangsaan A
- Medical Entomology
- Hematology

YEAR 3

- Hubungan Etnik / Pengajian Malaysia 3
- Clinical Biochemistry
- Pathophysiology
- Epidemiology
- Tamadun Islam & Tamadun Asia (TITAS) / Bahasa Melayu Komunikasi 2
- Special Topics in Biomedical Science 1
- Case Study 1
- Research Methodology (Science)
- Systemic Pathology
- Toxicology
- Special Topics in Biomedical Science I

YEAR 4

- Research of Biomedical Science (Part 2)
- Special topics of Biomedical Sciences 2
- Case Study 2
- Industrial Training

BACHELOR OF OCCUPATIONAL SAFETY & HEALTH (HONS)

(R/862/6/0054)(A11513)12/2020

Credit Hours: 126 Duration of Study: 4 years

PROGRAMME DESCRIPTION

This programme is an approach in delivering health, occupational safety and hygiene training which will allow a wider range of applicants to gain access to this growing field of employment.

CAREER PROSPECTS

Safety and Health Officer, Industrial Hygienist, Quality Control Officer, Factory and Machine Auditor, HSE Executive, among others.

SUBJECTS OFFERED

YEAR 1

- Biology Cell
- Basic Biomechanics
- Introduction To Occupational Safety & Health
- Physic
- Co-Curriculum
- Anatomy & Physiology
- Chemistry
- Occupational Hazard
- Industrial Safety
- Biochemistry
- Biostatistics
- Instrumentation For Occupational Safety & Health

YEAR 2

- English for Academic Purposes
- Environmental Impact Assessment
- Industrial Hygiene
- Industrial Sampling & Analysis
- Accident Investigation Procedure
- OSH International Standard of Organization
- Occupational Toxicology
- English for Employment
- Academic Skills
- Ergonomic
- Occupational Safety (I) : Management & Training
- Health Risk Assessment
- Occupational Epidemiology
- Water Quality Control And Technology
- Air Quality Control And Technology
- Entrepreneurship / Bahasa Kebangsaan A

YEAR 3

- Return To Work
- Conference of Professional Development
- Waste and Hazardous Waste Management
- Material Handling and Emergency Plan
- Research Methodology (Science)
- Hubungan Etnik / Pengajian Malaysia 3
- Occupational Diseases
- Occupational Stress, Psychological and Violence Management
- Law and Administrative of Occupational Safety & Health
- Fire Prevention Management
- Research Of OSH I
- Tamadun Islam dan Tamadun Asia (TITAS) / Bahasa Melayu Komunikasi 2
- Occupational Safety (II) : Engineering & Technical Safety
- Research Of OSH II
- Chemical Health Risk Assessment

YEAR 4

- Industrial Training 1
- Industrial Training 2

BACHELOR OF ENVIRONMENTAL HEALTH

(R/853/6/0048)(A11515)12/2022

Credit Hours: 129 Duration of Study: 4 years

PROGRAMME DESCRIPTION

This programme stresses the concept of environmental conservation and rehabilitation of human health. It includes all the health aspects such as food quality and safety, water quality, air quality, vector control, communicable and non-communicable disease control, occupational health and safety and the public health.

CAREER PROSPECTS

Environmental Health Officer, Food Hygienist, Food Safety Officer, Vector Control Officer, Environmental Officer, among others.

SUBJECTS OFFERED

YEAR 1

- Biochemistry
- Principles of Environmental Health
- Introduction to Occupational Safety & Health
- Basic Microbiology
- Behavioural Science
- Instrumentation of Environmental Health
- Biostatistic
- Environmental Microbiology
- Chemistry
- Environmental Pysic
- Anatomy & Physiology
- Genetic

YEAR 2

- Entrepreneurship
- English for Academic Purposes
- Ergonomic
- Environmental Toxicology
- Legislation of Environmental Health
- Water Supply Management
- Co Curriculum
- Air Quality
- Health Education & Promotion
- Public Health
- Academic Skill
- Bahasa Kebangsaan A
- English for Employment
- Water Quality
- Basic Toxicology
- Industrial Hygiene
- Parasitology & Entomology
- Vector & Insect Management

YEAR 3

- Hubungan Etnik / Pengajian Malaysia 2*
- Solid Waste Management
- Hazardous Waste Management
- Law Procedure
- Swimming Pool & Recreation
- Health Risk Assessment
- Tamadun Islam & Tamadun Asia (TITAS) / Bahasa Melayu Komunikasi 2*
- Epidemiology & Disease Control
- Research Methodology
- Quality Assurance
- Food Quality & Safety
- Environmental Sampling & Analysis
- Research (Part I)

YEAR 4

- Environmental Technology
- Environmental Impact Assessment
- Urban Environmental Health
- Research (Part II)
- Practical Attachment

BACHELOR IN NURSING (HONS)

MQA/PA11389

Credit Hours: 140 Duration of Study: 4 years

PROGRAMME DESCRIPTION

This program focuses on four main core sciences, namely Medical Sciences, Behavioral Sciences, Nursing Science and Research and Statistics. This course facilitates the provision of high quality and cost-effective services for patients/clients. It also contributes to the development of knowledge and analytical skills of students and enhances nursing intervention/action and decision-making skills, providing a strong foundation for lifelong learning. With provision of electives students are offered a variety of choices, allowing for development of learning, related to specific areas of practice.

CAREER PROSPECTS

Registered Nurses, Ward Sister/Managers, Director of Nursing, Clinical Nurse Specialists, Industrial Nurse/ Occupational Health Nurses, Clinical Instructors / Lecturers / Nurse Educators

The nurse graduate employability not only confine locally but internationally which include Commonwealth countries, Middle-east countries and many other countries.

SUBJECTS OFFERED

YEAR 1

- Anatomy & Physiology 1
- Microbiology & Immunology
- Psychology & Sociology
- Communication and Public Relation
- Principles & Practice of Nursing
- Clinical and Professional Practice 1
- Anatomy & Physiology 2
- Pharmacology & Anaesthesia Care
- Human Body System 1
- Clinical and Professional Practice 2
- Tamadun Islam and Tamadun Asia (TITAS)

YEAR 2

- Anatomy and Physiology 3
- Human Body System 2
- Research Methodology
- Clinical and Professional Practice 3
- English for Academic Purpose
- Human Body System 3
- Complementary & Alternative Nursing
- Statistic in Nursing Research
- Clinical and Professional Practice 4
- Co-curriculum (Project)

YEAR 3

- Human Body System 4
- Women's and Child Health
- Pediatric Nursing
- Disaster and Emergency Nursing
- Clinical and Professional Practice 5
- Mental Health Nursing & Counselling
- Gerontology Nursing
- Leadership & Management in Nursing
- Clinical and Professional Practice 6
- Elective

YEAR 4

- Community Health Nursing, Gerontology, Environment Health
- Oncology Care Nursing
- Clinical & Professional Practice 7
- Entrepreneurship
- English for Employment
- Teaching and Learning
- Medico-legal and Ethical Issues in Nursing
- Research Project
- Academic Skills
- Hubungan Ethnik

Words of Encouragement from Professional Bodies of Malaysia

The development of the Occupational Safety and Health industry is very fast. So the number of skilled manpower in this field are in a very high demand. The courses offered in this field in City-U is very much in-line with the current requirements of the industry.

Dato' Ir. Mohtar Musri

Director General, Department of Occupational Safety & Health Malaysia (2017)

Students from City-U have the capabilities, the much needed knowledge and talent in this growing industry. At the same time, the ability can be applied if they are planning to pursue their studies in the next level.

Ar. Mohd Zulhemlee An

President of the Association of Malaysian Architects (2015)

Education coordination between ACCA and City-U benefits the accounting students in this institution. Students in City-U are granted 7 exceptions out of the 14 subjects to be taken to obtain ACCA accreditation.

David Chin

Chairman of ACCA Malaysia (2016)

The field of information technology now requires graduates who understand their functions thoroughly. Of course, the outstanding students in this course will be in demand of any company. I believe that City-U graduates can also prove their worth.

Augustine Chan

Microsoft Authorized Education Reseller Program Manager

High quality and competitiveness is one thing I can see in City-U students. The quality of the students who are undergoing our industrial training programme is very good. So we do not hesitate to continue absorbing them as our employees here.

Prithipal Singh

Chief Executive Officer of Jet Asia (2007- Present)

I can say that students from City-U demonstrate good working quality. Even though they have just completed their studies, they are not clumsy and the way they work also shows that they have been trained very well at the institution before entering the real world of work life.

Minizar Francis Nordin

Chief Medical Technology of Kelana Jaya Medical Centre

The ability of City-U learners in some ways has convinced our customers that each of the designs and creations has its own significance. Thus, the City-U graduates are in-line with the widespread demands of the industry.

Ar. Jeffery Cheah

Principal and Managing Director of Syarikat Seni Bina Zone (1993-Present)

City-U students undergoing industrial training in my company are highly capable, able to work independently and are able to meet the demands of this industry in general.

Ir. Johan Zakaria

Director of Syarikat Johan Setia Perunding (M) Sdn. Bhd. (2000-Present)
